Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles

Wipe frequently with a damp microfibre cloth to maintain the appearance

Most stains can be removed using cold/warm water and a clean microfibre cloth

Use cold water when treating stains caused by bodily fluids

If soap based cleaners are used, all soap residues must be rinsed from the fabric

Alcohol, Petroleum or Alkali based solvents must NOT be used for cleaning

Do not machine wash

Do not use any type of furniture polish

Always try cleaning products on a hidden piece of fabric to test suitability

Clothing dyes and biro are very difficult to remove from any fabric

Remove all stains immediately before they set

Please refer to the Care Sheet on the Agua website for further details
