

Pride Medi-Track

Cubicle and Window Track Component Specifications

PC100 Track 	<p>Pride Medi-Track is manufactured from extruded aluminum alloy 6063-T5, 1 3/8"(34mm) x .75"(20mm) with a minimum wall thickness of .062"(1.6mm). Finish is satin clear anodized. We recommend suspended mountings where ceilings are high. PC100 comes in 16' lengths.</p>	
PC105 Track (same as above)	Cut to measure. (priced up to next foot)	
PC190 90° Curve	All 90° corner bends are fabricated in our facility, with a 12"(305mm) radius. (4' run)	
PC145 45° Curve	All 45° corner bends are fabricated in our facility, with a 12"(305mm) radius. (4' run)	
PC200 Carrier : All Pride Medi-Track carriers have axles and wheels produced from virgin nylon and are assembled to the nickel plated brass bead chain and hook. The nickel plated brass hook is more durable than other aluminum hooks commonly used in other products. This carrier features a self-lubricating axle/wheel combination.		
PC200N Carrier :Break Away Safety Carrier with Nylon Hook is compatible with Pride Medi-Track (Hospital Track). Hook pulls away with approximately 7 pounds of pressure applied. Hook can be reinserted by snapping the ball head back into the body of the carrier without removing the carrier from the track. No metal parts in this carrier - all nylon. Ideal for high risk areas.		
PC300 End Cap 	The PC300 is a popular and economical stopper. It does not have the carrier gate feature.	
PC400 Carrier Gate with Endstop 	Track hardware may consist of the carrier gate assembly with a carrier stop and carrier gate for use at all curtain stacking points. With the PC400, it is easy to add or remove carriers.	
PC500 Splice 	This 6" splice is used where a one piece installation is not possible.	
PC600 Suspension Splice (same as above)	Same as thePC500, but used to join 2 suspended tracks. 12" length.	
PC2063 Wall Bracket 	Made of 100% Nylon. Aluminum in colour. Recommended also for suspended tracks.	PC3063 Ceiling Flange  Ceiling flange with screws is made of 100% Nylon. Aluminum in colour. This is a circular flange.
PC4063 Bottom Flange Insert Winged tension flange that fits into the PC7063 Suspension Rod. 	PC7063 Suspension Rod 100% brushed aluminum 1" tubing cut to your specifications.
